LR 450HL

Recycling our past for a better future

LR 450HL | FEATURES

The LR 450HL has a large feed opening making it ideal for pallet sized cardboard. The LR 450HL has vertical tying and second bale eject.

- Photocell Control
- Automatic cut-out when bale is full
- Optional side mounted bin lift
- Trip bar option
- Simple operating controls
- Dual monitoring controls

SPECIFICATION

Machine Length x Width x Height	5380 x 1750 x 1750 mm
Machine Weight	5500 Kg
Feed Opening Length x Width	1400 x 1050 mm
Min. Bale Size Height x Width x Depth	750 x 1150 x 1100 mm
Approx. Bale Size	450 Kg
System Pressure	10 Bar
Pump Size	18 cc/rev
Number of Rams	2
Compaction Force	50 Tonne
Total Cycle Time	105 seconds
Bale Strapping	Steel wire
Number of Straps	4
Ejection Method	2nd bale discharge
Motor Power	7.5 kW
Voltage Requirement	415v 3 phe 5-pin plug
Motor Speed	1440 rpm
Running Current	15 A
Internal Control Circuit	24V AC
Fitted Plug Type	3P&E 32A
