LR 400H

Recycling our past for a better future

LR 400H | FEATURES

The LR 400H is ideal for volume reduction of small sized material, small boxed shredded air-blown material. The press plate extends the whole way to the manual vertical tying.

- Photocell Control
- Automatic cut-out when bale is full
- Tie off at any bale length
- Hydraulic door latch

SPECIFICATION

Machine Length x Width x Height	4500 x 1750 x 1750 mm
Machine Weight	5000 Kg
Feed Opening Height x Width	1050 x 650 mm
Min. Bale Size Height x Width x Depth	750 x 1150 x 850 mm
Approx. Bale Size	375 Kg
System Pressure	190 Bar
Pump Size	18 cc/rev
Number of Rams	2
Compaction Force	50 Tonne
Total Cycle Time	75 seconds
Bale Strapping	Steel wire
Number of Straps	4
Ejection Method	Ram push out
Motor Power	7.5 kW
Voltage Requirement	415v 3 phe 5-pin plug
Motor Speed	1140 rpm
Running Current	15 A
Internal Control Circuit	24V AC
Fitted Plug Type	3PN&E 32A
